

***AFPR1ME GROWTH*® Variable Annuity - American Fidelity Separate Account A ***
March 31, 2008 Quarterly Performance

Annuities can provide an effective and systematic method of saving for retirement. Variable annuities offer growth potential which can help build wealth by keeping up with inflation. Variable annuities also offer the potential of greater returns in exchange for a higher degree of risk.

The *AFPR1ME GROWTH*® Variable Annuity was designed for people seeking long-term investment objectives, typically for retirement savings. Money invested in the *AFPR1ME GROWTH*® Variable Annuity is invested, on a tax-deferred basis, in the American Fidelity Dual Strategy Fund, Inc. ® (the Fund). Four sub-advisers manage the Fund's portfolio. Each sub-adviser manages a portion of the portfolio using its own investment strategy in order to achieve the stated investment goals.

American Fidelity Dual Strategy Fund, Inc. ® was created January 1, 1999 when it acquired the portfolio of American Fidelity Variable Annuity Fund A, a managed separate account having an original inception date of January 1, 1970. Performance of the Fund prior to January 1, 1999 represents the performance of American Fidelity Variable Annuity Fund A, as adjusted for the Fund's current expense structure.

Consider the investment objectives, risks, charges and expenses of the investment product carefully before investing. The separate account and portfolio prospectus contain this and other important information about the variable annuity product. Please contact your representative to obtain the prospectuses, or American Fidelity directly at 1-800-662-1106. Both prospectuses should be read carefully before investing.

Investment in a variable annuity contract is subject to risks, including possible loss of the principal amount invested. The shorter the time period for the investment, the greater the possibility of loss.

The performance data presented represents past performance, and is not an indicator of future results. Current performance may be lower or higher than the performance presented here. Investment return and principal value of an investment will fluctuate so that an investor's units, when redeemed, may be worth more or less than their original cost. These investment accounts are not insured by the U.S. Government or any other agency.

Because of market volatility, current fund performance may have changed since these returns were compiled. Withdrawals prior to age 59½ may be subject to ordinary income tax and a 10% IRS penalty.

AFPR1ME GROWTH® Variable Annuity - American Fidelity Separate Account A *
March 31, 2008 Quarterly Performance

Fund performance is calculated by determining the average annual compounded rate of return over each period. Performance information assumes an original investment amount of \$1,000; deduction of a one-time \$15.00 certificate issue fee; contract expenses totaling 4.0% (sales charge: 3.0%, administrative and death benefit expenses: 1.0%); a \$0.50 per payment transaction expense; and Dual Strategy Fund investment advisory fees. This performance is net of all contract and fund expenses.

Average Annual Total Return	
1 Year	-10.36%
5 Year	7.17%
10 year	1.42%
